## **Organic September 2021 - give it a try.**

In the face of climate change, diet related ill-health and widespread decline in wildlife, the need to change our food systems has never been greater.

Organic September is a month-long campaign to raise awareness of the many benefits of organic food and farming, which include:

Supporting biodiversity and wildlife

Helping to combat climate change

The highest standards of animal welfare

Reduced exposure to pesticides

Food as it should be, and food you can trust
