Help High Wycombe's Bees

JOIN BEE SQUARED

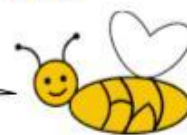

Together we can help the pollinators.

Bees and other pollinating insects have declined significantly over the last 50 years. Together we can give pollinating insects a helping hand by sowing a square metre patch of garden, or a big pot or two, with our **free** wildflower seeds (cornflower, common poppy, corncockle, corn chamomile, corn marigold) and create a patch of colour at the same time.

Each seed packet will contain information and planting instructions. You can find more information on how to get your seeds here: <https://climateactionnow.uk/bee-squares/> or scan the QR code below.

Spread the word - tell your friends and neighbours and create a wildlife corridor.

Thank you!

Bee Squared is organised by Wycombe Environment in collaboration with Wycombe Friends of the Earth and funded by Buckinghamshire Council Community Board and Red Kite Community Housing.

Wycombe Environment is part of the Environment and Climate Change sub-group of the High Wycombe Community Board, set up by Buckinghamshire Council.
