10. Windy Way Project - any more updates? Damon?
11. WEP/WEC activities
12. AOB e.g., Gomm Valley Dev and Mycellium Map

Suggested Ecotip (more suggestions welcome by email or at the meeting)

1. Air quality in the home

Some of the worst air quality is to be found in the home: fumes from paints and cleaning products can lead to a build-up of chemicals like benzene, a known carcinogen. Plants filter out many air impurities and give off oxygen, so why not grow a few indoors? The African daisy, green spider plant, peace lily and philodendrons are particularly good air filters.

2. Spring seed sowing.

Spring is in sight, so get sowing. Feb is a good time to sow some hardy veg in your greenhouse, or window sill, e.g. leeks or lettuce. See gardening tips from RHS <https://www.rhs.org.uk/advice/in-month/february>

Subject: Asda grants

To: info@refreshwycombe.org <info@refreshwycombe.org>

Hello,

I am Fatima, the Community Champion for Asda High Wycombe.

We have an Asda Foundation grant starting on 14.01.2025 specially for improving outdoor spaces.

I was thinking that the Wycombe Environment Centre might be interested of applying for a grant up to £3000

One of the criteria is that the groups should have a yearly income under £250.000.

Please pass my email on to the relevant person .

Thank you.

Best wishes

Fatima
